

GERARDO NÚÑEZ VALPUESTA

FULL-STACK ENGINEER | ANGULAR, SAAS & AI AUTOMATION

Mexico (GMT-6) | Remote / Hybrid | +52 55 8442 2457 | valpuestagerardo@gmail.com | linkedin.com/in/gerardoalpuesta

PROFESSIONAL SUMMARY

Full-Stack Engineer with 4+ years of experience building enterprise SaaS platforms, ERP modules, analytics dashboards, mobile applications, and AI-powered automation solutions. Specialized in Angular, TypeScript, Node.js, Svelte, PostgreSQL, and Docker, with hands-on experience building AI agents, n8n automations, API integrations, and LLMOps workflows. Focused on performance, maintainable architecture, and measurable business outcomes.

KEY IMPACT

- Developed and deployed an autonomous, multi-company, multi-RFC SAT (Mexican tax authority) agent that automates the end-to-end CFDI workflow: CIEC/e.firma authentication, AI-based CAPTCHA solving, invoice retrieval, file processing, and delivery of accounting-ready packages. Built in an AI copilot to flag pending items and tax risks, support bank reconciliation, and generate accounting and executive reports for monthly close.

TECHNICAL SKILLS

Full Stack & Frontend: Angular, TypeScript, JavaScript, Svelte, React, React Native, HTML5, CSS, Tailwind CSS, RxJS, Lazy Loading, Code Splitting, Web Performance Optimization

Backend & Data: Node.js, REST APIs, PostgreSQL, SQL Server, MongoDB, SQLite, Firebase, JWT Authentication, Role-Based Access Control (RBAC)

AI & Automation: AI Automation, AI Agents, n8n, LLMOps, Large Language Models (GPT-4, Claude, Gemini), Model Context Protocol (MCP), Prompt Engineering, Workflow Automation, API Integration, RPA

DevOps & Tools: Docker, Git, GitHub, Vercel, Railway, Supabase, Playwright, Tauri, Agile / Scrum

PROFESSIONAL EXPERIENCE

Full-Stack Engineer | **XAMAI / Ximplify**

2022 - Present | Mexico | Hybrid | Full-time

Development and maintenance of enterprise SaaS platforms, ERP modules, and analytics dashboards for mid-market clients. Also build AI automation solutions and AI agents for external clients.

- Architected a reporting module processing 1M+ records with load times under 3 seconds.
- Reduced initial load time by 85% through lazy loading and code splitting.
- Led the migration from Angular 12 to Angular 17 with zero downtime and no user-facing regressions.
- Implemented granular role- and permission-based access control across multiple enterprise platforms.
- Contributed to a 90% improvement in user satisfaction following the XAMAI Client Portal 2.0 redesign.
- Cut manual operational work by up to 80% through n8n automation pipelines.

Frontend Developer | **Stan Semper Crasol**

2020 - 2022 | Mexico | Contract

Development of admin interfaces, landing pages, Android applications, and real-time dashboards for video surveillance and logistics projects.

- Built 3 landing pages scoring 95+ across all Lighthouse categories.
- Developed an Android field-reporting app with photos, GPS, serial numbers, and automatic sync via Firebase; project won the C5 bid in 2021.
- Integrated REST APIs and payment gateways (Stripe, OpenPay), plus logistics dashboards using WebSockets.

SELECTED PROJECTS

AI-Powered WhatsApp CRM

- Developed and validated a WhatsApp CRM integrated with AI, designed to centralize conversations, automate initial outreach, and follow up with leads through conversational flows.

Sharit - Sports Social Network

- Actively developing a full-stack mobile app to discover and join sports activities, featuring a REST API, JWT authentication, geolocation, push notifications, and gamification.

EDUCATION & TRAINING

B.S. in Computer Systems Engineering | UTEL University | 2022

Associate Degree in Programming | UTEL University | 2015

Relevant courses: AI Agents with n8n, MCP, WhatsApp & Voice; Chatbots and Artificial Intelligence; Angular; Modern JavaScript; Tailwind CSS, Next.js & Svelte; SQL Server Transact-SQL; Android with Kotlin; Go for Backend.

LANGUAGES

Spanish: Native | English: Intermediate (B1)
